1. ABOUT US

Dart Race is a service company born from the passion and commitment of Patrizia Ghinelli and Vittorino Mesaroli, who have been involved in the motorcycle track days area since years. Established in December 2018, Dart Race wants to distinguish itself from other operators in the sector, due to the quality of the offered services and the attention paid to our customers.

- Track days are organized exclusively with the division into rounds by category, with the timing service always included.
- We guarantee a limited number of riders per category on the track, to give everyone the chance to improve their performance, with maximum safety.
- The constant presence of the Rider Coach and the Technical Assistance, services always included in the price, our standard to offer the greatest possible support, training and technical for the persistent growth of the pilot.
- A rich buffet is always available for every event.

Furthermore:

- Motorcycle transport
- Motorbike rental
- The service of motorbikes loading and unloading, on vans or trolley
- the service "on the track alone"
- the management of all tourist services (flight, hotel, etc.) for transfers outside Italy

...and so much more

Once the event on the track is finished, we do not leave our client alone, attention to his needs extends throughout the year, classroom training, advice and technical assistance, to continue the path of growth of the rider and his bike.

Our strength is that we are more than a company and a staff of people, we consider ourselves like a family ...the assistance and the attention reserved to our clients / pilots is aimed precisely at offering the best possible service, to make them feel a bit like "at Home" and give them the most beautiful experience on the track that they could desire, in complete safety .

2. YOUR TRACK

At our events we host only a limited number of riders in order to guarantee healthy competition, constant improvement and safe speed, every time.

Thanks to this choice, we can follow your race in the circuit with the utmost attention, analyzing every second of your stay inside the track.

This allows us to give you the most correct indications to improve your technique and your performance.

3. YOUR RIDER COACH

Simone Corsi, Alessandro Celestini and all their staff as Rider Coach, will be present at all stages of our events.

They will sharpen your motorcycling skills through theoretical driving lessons, practical box tips and track accompaniment.

Your circulation on the track will obviously be free, it won't be a course. The Rider Coaches will ride with you, they will observe you from afar, then if you'll wish, you could rely on them for any advice.

Thanks to their track experience, you will be able to improve your performance as a driver, reducing the journey time of the entire track by significant seconds. *Constantly improve your times.*
